

SERVICE STANDARDS

INTRODUCTION

The Association has clear standards of service that you, our tenants and service users, can expect.

Who are our service users?

Our service users include tenants, owner occupiers, housing applicants and any other individual or groups of individuals who seek or receive a service from the Association. Any reference to 'tenants' in this document includes owners, housing applicants etc.

What are service standards?

Service standards are our commitments to you. They outline how specific services will be delivered and explain to our tenants the quality of the service that can be expected.

The Association is very much aware that the way in which we provide services is as important as the service itself. If you feel that we have not met a service standard in any way, please complete the customer feedback slip attached or you can use our formal complaints handling procedure. This will help us to continually improve our service delivery to you.

We will review these standards on a regular basis with tenants and report back to you in our newsletters on our performance.

Where our service standards state a target for responding within a set number of days, we mean working days.

Where we have not met our standards of service, we will apologise, explain why and aim to ensure that it doesn't happen in future.
